AUDITOR'S REPORT

To the **Board of Trustees and Directors of ORBIT TRADERS.**

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

OPINION

We have audited the financial statements of **ORBIT TRADERS** (the **Orbit** or the **Firm**), which comprise the statement of financial position as at **31 December 2020** and the statements of income and comprehensive balance - changes in equity and cash flows for the year then ended and drafts to the financial statements as relating to significant accounting policies and target revenue for the upcoming year.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of **ORBIT TRADERS** as at **31 December 2020**, and its financial performance and its cash flows for the year then ended in accordance with International **Financial Reporting Standards (IFRSs)**.

BASIS FOR OPINION

We conducted our audit in accordance with **International Standards on Auditing (ISAs)** as these have been incorporated into English legislation. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report.

We have been independent of the Bank during the whole period of our appointment in accordance with the **International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code)** as incorporated into the English legislation and the ethical requirements in the **United Kingdom - U.K** relevant to the audit of the financial statements and we have fulfilled our ethical requirements in accordance with the applicable legislation and the abovementioned Code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year.

These matters and the assessed risks of material misstatements were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

OTHER INFORMATION

Management is responsible for the other information. The other information comprises the information included in the **Annual Financial Statements and Reports**, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement in this other information, we are required to report that fact.

We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Orbit Traders ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Orbit Traders or to cease operations, or has no realistic alternative but to do so.

The Audit Committee of the Orbit Traders is responsible for overseeing the Bank's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with **ISAs**, as these have been incorporated into English legislation, will always detect a material misstatement when it exists.

Misstatements can rise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters.

December, 2020.

Pete Drurrier B.

Chief Auditor,

ORBIT TRADERS LTD

BUDAPEST, HUNGARY

The members have not required the company to obtain an audit of its financial statements for the period through the year ended **December 31, 2020**.

The managing director further acknowledges his responsibilities for:

- Ensuring that the company in its entirety keeps accounting records which comply with the corresponding sections of the **Companies Law** and also
- Preparing financial statements which give an unbiased view of the state of affairs of the firm as at the end of each financial year and of its profit or loss for each financial year in accordance with the requirements in the also corresponding sections and which otherwise comply with the requirements of the **Companies Law** relating to the financial statements, so far as applicable to the firm.

DRAFTS TO THE FIN. ACCOUNTS

PURPOSE OF THE ORBIT TRADERS

ESTABLISHING AND PURPOSE OF THE ORBIT TRADERS

Purpose of the Orbit Traders is to accelerate development by creating portfolios for trading, and investment purposes and promote cooperation among its shareholder countries. As a regional development institution, the Orbit Traders is well placed to mobilize financial resources and to improve access to financing for businesses in the whole region as well as for those active only in its individual Member Countries.

The Orbit Traders offers project and trade financing facilities, equity participations and guarantees.

Orbit Traders financing of projects and programs is available directly or in cooperation with other national and international development institutions. The Orbit Traders may also, where appropriate, provide technical assistance to potential clients.

BASIS OF PREPARATION OF FINANCIAL STATEMENTS

BASIS OF PREPARATION

The financial statements have been prepared in accordance with International **Financial Reporting Standards (IFRSs)** as issued by the **International Accounting Standards Board (IASB)**.

These financial statements for the year ended **2020** were submitted by the Management Committee to the Board of Directors for approval on **January 10, 2021** and were approved for issuance on that date.

BASIS OF MEASUREMENT

- The financial statements have been prepared on a historical cost basis except for the below assets and liabilities which have been measured at fair value:
- Debt investment securities at fair value through other comprehensive income;
- Loans at fair value through profit or loss;
- Equity investments at fair value through profit or loss;
- Equity investments at fair value through other comprehensive income;

- Derivative financial instruments; and
- Plan assets.

The carrying values of recognized assets and liabilities that are hedged items in fair value hedges, and otherwise carried at amortized cost, are adjusted to record changes in fair value attributable to the risks that are being hedged.

FUNCTIONAL AND PRESENTATION CURRENCY

Orbit Traders functional currency is the **United State Dollar (USD)**. USD is most representative of the Orbit Traders operations and environment as a significant percentage of Orbit Traders lending operations are in USD, and the administrative expenses and capital expenditures are primarily denominated and settled in this currency.

Orbit Traders presentation currency is the USD and values are rounded to the nearest millions unless otherwise stated.

USE OF ESTIMATES AND JUDGMENTS

The preparation of the financial statements in conformity with **IFRS** requires management to make judgments and use of estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period.

Actual results may differ from those reported. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.

The areas where Orbit Traders has applied judgement and used estimates and assumptions are: estimation of expected credit losses of loans-and-receivables, valuation of financial instruments not quoted in active markets, including **OTC** derivatives and certain debt securities, impairment of investment securities, estimation of retirement benefits obligation, and contingencies from litigation.

FOREIGN CURRENCIES TRANSLATION

Foreign currency transactions are initially recorded in USD by applying to the foreign currency amount the exchange rate between the USD and the foreign currency at the rate prevailing at the date of transaction.

When preparing the financial statements exchange gains and losses arising from the translation of monetary assets and liabilities denominated in foreign currencies at year end are recognized in the income statement.

Monetary assets and liabilities denominated in foreign currencies are translated into USD at the exchange rate at the reporting date. The foreign exchange gains or loss on monetary items is the difference between the amortized cost in Euro at the beginning of the year, adjusted for the effective interest, impairment and prepayments during the year, and the amortized cost in the foreign currency translated at the exchange rate at the end of the year.

CASH AND CASH EQUIVALENTS

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash on hand, placements with other financial institutions and debt securities with maturities of three months or less from the financial position date. These are highly liquid assets that are readily convertible to a known amount of cash and are subject to insignificant risk of change in value due to the movements in market rates.

RECOGNITION AND INITIAL MEASUREMENT, AND DERECOGNITION OF FINANCIAL INSTRUMENTS

Orbit Traders recognizes a financial asset or financial liability in its statement of financial position when it becomes a party to the contractual rights or obligations.

FINANCIAL LIABILITIES

Orbit Traders recognizes a financial liability in its financial statements at the time of the arising from the item (that is, the day the transaction took place). Financial liabilities primarily include **borrowings** and **other liabilities**.

BORROWINGS

Borrowing transactions which are amounts due to financial institutions and debts evidence by certificates, are recognized in the statement of financial position at the time the funds are transferred to Orbit Traders. They are measured initially at the fair value of the funds transferred, less any transaction costs. They are subsequently measured at amortized cost unless they qualify for

hedge accounting in which case the amortized cost is adjusted for the fair value movements attributable to the to the risks being hedged. Interest expense is accrued in the income statement within “**Interest expense**” using the effective interest rate method.

OTHER LIABILITIES

Other liabilities that are not derivatives or designated at **FVTPL**, are recorded at amortized cost. The amounts include accrued finance charges on borrowings and other accounts payable.

OFFSETTING OF FINANCIAL ASSETS AND LIABILITIES

Offsetting of financial assets and liabilities in the financial statements is permitted if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

DERIVATIVES

In the ordinary course of business, Orbit Traders enters into various types of transactions that involve derivative financial instruments. A derivative financial instrument is a financial contract between two parties where payments are dependent upon movements in price in one or more underlying financial instruments, reference rates or indices.

Orbit Traders primarily makes use of derivatives for the below strategic purposes:

- Many of Orbit Traders issued securities, excluding commercial paper, are individually paired with a swap to convert the issuance proceeds into the currency and interest rate structure sought by Orbit Traders.
- To manage the net interest rate risks and foreign exchange risks arising from all financial assets and liabilities.
- Through currency swaps, to manage funding requirements for Orbit Traders loan portfolio.

Derivatives can include interest rate and cross currency swaps, forward foreign exchange contracts, interest rate future contracts, and options on interest rates and foreign currencies. Such financial instruments are initially recognized in the statement of financial position at cost and are carried as assets when fair value is positive and as liabilities when fair value is negative. Changes in fair value of derivatives are included in the income statement. Fair values are obtained from quoted market prices, to the extent publicly available, discounted cash flows and options pricing models as appropriate.

FINANCIAL GUARANTEES

Issued financial guarantees are initially recognized at their fair value, being the premium (fee) received and subsequently measured at the higher of the unamortized balance of the related fees received and deferred, and the expenditure required to settle the commitment at the financial position date. The latter is recognized when it is both probable that the guarantee will require to be settled and that the settlement amount can be reliably estimated. Financial guarantees are recognized within other financial assets and other financial liabilities.

PROPERTY AND EQUIPMENT

Property and equipment include leasehold improvements and transportation and other equipment. Property and equipment are initially recorded at cost, which includes all costs that are required to bring an asset into operating condition. Subsequently to initial recognition, property and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Costs incurred subsequently to the acquisition of an asset, which is classified as property and equipment are capitalized, only when it is probable that they will result in future economic benefits to Orbit Traders beyond those originally anticipated for the asset, otherwise they are expensed as incurred.

SHARE CAPITAL AND DIVIDENDS

In accordance with the Establishing Agreement, the Board of Trustees shall determine annually what part of net income or surplus of Orbit Traders from operations shall be allocated to reserves, provided that no part of the net income or surplus of Orbit Traders shall be distributed to members by way of profit until the general reserves of The Orbits shall have attained the level of 10% and the subscribed capital including all paid, unpaid but payable, and unpaid but callable share capital.

INCOME AND EXPENSE

Interest income and expense are recognized in the income statement using the effective interest method. The **effective interest rate (EIR)** is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument (or, where appropriate, a shorter period) to:

- The gross carrying amount of the financial asset; or
- The amortized cost of the financial liability.

RISK MANAGEMENT

Orbit Traders activities are subject to a variety of risks, some of which are not within the Orbit Traders control: including risks relating to changes in interest rates, foreign exchange rates, declines in liquidity and deterioration in the credit quality of its loan portfolio. Orbit Traders monitors and manages the maturities of its loans, its interest rate and exchange rate exposure, its liquidity position and the credit quality of each individual loan and equity investment in order to minimize the effects of changes in them relative to Orbit Traders profitability and liquidity position.

The Board of Directors has approved risk management policies and guidelines that are delegated to the Management of Orbit Traders for the identification and measurement of risk, as well as being subject to risk limits and controls.

To manage risks, The Orbits has established an **Asset and Liability Committee (ALCO)**, a Credit Committee that implement the Orbit Traders credit and lending policies, the Office of the General Counsel, the Department of Risk Management and the Department of Financial Analysis, which together are responsible for devising, implementing and monitoring the Orbit Traders risk management policies, including financial, credit and market risks.

EMPLOYEE BENEFITS - UNDER THE DEFINED BENEFIT SCHEME

If separated or after the normal retirement age - **60 years old**, a staff member will be entitled to a full immediate pension equal to **2%** of his or her annual pensionable salary (that is, average of the two best out of the six previous years) multiplied by his or her years of service at Orbit Traders. If separated at or after the early retirement age - **50 years old**, a staff member will be entitled to a reduced immediate pension, or deferred pension payable from any month until the staff member's normal retirement age. If separated before the early retirement age, a staff member will be entitled to a deferred pension payable from any month between the staff member's early and normal retirement age.

Upon separation at any age, a staff member will have a choice between the appropriate type of pension and a lump sum termination benefit.

SUSTAIN. AND NEXT REV. TARGET

SUSTAINABILITY EFFORTS

SUSTAINABILITY AND COMMUNITY INVESTMENT

Sustainability is one of our core values and continues to guide our actions – our service to our customers; our business governance; and our contribution to our operating environment.

The Orbit's sustainability agenda is largely influenced by the pillars of the **International Sustainable Investment Principles (ISIPs)**, developed and adopted by the Investors' Committee.

The principles encourage banks to promote economic growth, whilst protecting communities and the environment in the normal course of duty.

WOMEN'S ECONOMIC EMPOWERMENT

We recorded an increase in the number of female employees at **The Orbits** versus the previous year. In addition, we have one (01) woman on the Firm's Board and five (5) of the Firm's **25-member** Executive Management Committee are women.

Having achieved a female staff strength of **20%** at the Firm, we are putting strategies in place to replicate this at the Group level.

We have successfully passed the bill to launch our **skill acquisition programme**, through which we would be able to empower close to **2,300** women-owned businesses.

FINANCIAL INCLUSION

Our Firm caters to people who do not have access to the four walls of the digital assets' investments, development and management hall, providing them with basic management services within their communities.

Currently we have over **33** agents spread across the globe and we fully intend to increase this figure substantially in **2021**.

CAPACITY BUILDING

Apart from knowledge improvement programs held to sensitize employees on sustainability principles, we conducted online and classroom training sessions covering topics such as sustainable energy finance, clean mini grid development, analyzing energy efficiency and

renewable energy projects and sustainability in digital assets investments, development and management, with a total of **1,280** combined participants.

NEXT REVENUE TARGET

Presented in – x **1,000,000.00 USD**

	Orbit Traders	Investments	Arbitrage	Annuities	Affiliate Programs	Total
Value (Million USD)	7.55	9.33	15.87	5.07	5.18	43.00
Value (Percent - %)	17.55	21.70	36.91	11.80	12.04	100

In the board meeting held on the **31st** day of December **2020**, emphasis was laid on the need for more advancement and improvement in our trading sector as it stimulates other sectors simultaneously.

For the year **2021**, we have targeted a total of **43.00 Million USD** profit (after tax) with a whopping **21.70%** of this gross total coming from the **INVESTMENT SECTOR** alone out of the entire revenue structure.

For this, things have been put together in the needed places to facilitate this.
